

Competitors Safety Briefing:

GENERAL

1. Our club race is conducted under the rules and regulations set out by Triathlon Australia's "Race Competition Rules & Policies"
2. The race is operated on open roads under special approval from NSW Police. Competitors must abide by NSW road rules during the ride and run legs. This is operated as a non-drafting bicycle event, you must leave a gap of 10m between the bike in front of you.
3. No bags are to be left in the transition area.
4. If at any point throughout the day you are feeling unwell, marshals are on course with mobile phones if you need assistance, we ask that you withdraw from the race and report your race number to the timekeeper at transition.
5. Do not litter out on course. Rubbish vessels are available at transition.
6. No audio players of any description are to be used during any leg of the race.
7. Keep left on exiting and entering the pool to/from transition to avoid collisions
8. Obey all directions from marshals, and remember they are giving up their time to enable you to race. Please thank them when you pass them.

THE SWIM LEG

1. Competitors may stop and hold the side of the pool or stand.
2. Competitors in difficulty should raise their arm and call for assistance.

SINGLETON TRIATHLON CLUB

THE CYCLE LEG

1. **Your safety and that of others on the course is the number one priority, not your lap time. The sustainability of our event relies on you taking this seriously.**
2. Helmets must be securely fastened on the head before the bike is removed from the rack, and must remain fastened at all times on the course until the bike is replaced on the rack at the completion of the bike course.
3. All competitors must have their torso covered before removing your bike from the transition rack and must remain on until the end of the race.
4. Competitors must mount and dismount at the designated area, before entering the roadway
5. Our course is open to local traffic, **you must obey all NSW traffic laws**
6. Ensure that you do not short cut any intersections on course.
7. Do not cross the centreline of the road.
8. Obey all directions of marshals.
9. Failure to follow road rules is illegal and may result in disciplinary action including disqualification, suspension or being banned from our Club Triathlon event.
10. You must always pass on the right hand side of fellow competitors and parked vehicles; illegal passing is a very dangerous practice, and cause for disqualification.
11. Do not weave in and out of parked traffic.
12. **Drafting* is not allowed** and places yourself and your fellow competitor in a potentially unsafe position on the road. People deliberately drafting will be disqualified from the race. You must maintain a **10M gap** between you and the rider in front unless passing.
13. Passing should be completed when there are no vehicles passing and without hesitation to return to single file. Riders are not to ride side by side in this event.
14. It is the responsibility of an overtaken competitor to fall back **10M** before attempting a new passing manoeuvre.
15. It is the responsibility of the competitor to check to see if it is safe to conduct U-turns at the turn around points or proceed at intersections, not the marshal.
16. Combo Lane is a public road and Juniors must keep to the left at all times.
17. Rack your bike at the same place as you unracked and that it does not impede any other competitors.

THE RUN LEG

1. Always keep to the edge of the road, give way to traffic and obey marshal's directions. On return from the Church please don't cross the road to return. Stay on the Church side.
2. Competitors may run or walk, but may not crawl.
3. Competitors may not run with a bare torso or without shoes.
4. A drink station will be available at the start of each lap – water only you must have your own container (cups are not provided)

**drafting is when you ride close behind another cyclist and gain unfair advantage from the slipstream they create. Cyclists must leave a 10 m gap to the rider in front of them.*
